City of Capitola
Request for Proposals
Capitola Wharf Long-Term Use and Development Plan
May 24, 2024

I. General Information and Schedule

This Request for Proposals (RFP), issued by the City of Capitola (City), invites responses from qualified, innovative, experienced, professional planning and design consultants (Consultant) to develop the planning and design for the long-term use of the Capitola Wharf through creation of a Capitola Wharf Long-Term Use and Development Plan (Project).

The project will involve an extensive public outreach and public participation component to engage the public in the design process. This process aims to gather community input to determine the variety of amenities and services to be featured on the Wharf. Consultant will be expected to lead this public input effort with support from City staff. Proposals should therefore include an appropriate public participation component, including public workshop(s) and/or design charrette(s). Consultant will also be expected to present conceptual and final development plans to the City Council.

The selected Consultant will provide planning, design, and engineering services to the City including, but not limited to: preparation of conceptual and preliminary site plans and development plans. The Consultant will also provide construction cost estimates for the project if constructed all at once, or divided into separate phases to be completed as funding allows. Consultant may be asked for completion of the construction bid document package for a specific phase or the entire project, as an amendment to the agreement.

Maximum Budget with Contingencies: \$75,000

Questions concerning this RFP must be made via email per the schedule outlined below.

II. BACKGROUND

The City of Capitola is currently constructing the Capitola Wharf Resiliency and Public Access Project [<https://www.cityofcapitola.org/publicworks/page/capitola-wharf-resiliency-project>] aimed at repairing damage and improving the longevity of the historic Capitola Wharf (Wharf). Situated in Monterey Bay, the Wharf has been a cherished landmark since its construction in 1857. In addition to the Resiliency Project, the City has collaborated with local community volunteers on the Capitola Wharf Enhancement Project (CWEP) to enhance the user experience at the Wharf.

Previously, there were two buildings owned by the City on the Wharf structure, which were leased by long-established businesses. The storms in December 2023 caused additional damage to both the Wharf and its structures, necessitating the removal of the buildings and further repairs to the Wharf beneath them. In February 2024, the City Council approved the removal of the buildings and requested staff return with a long-term use and development plan for the Wharf.

A City plans to host a grand reopening celebration of the Capitola Wharf on August 13, 2024. At the time of reopening, the following features will be in place:

- New Wharf Entryway
- Public Artwork
- Fishing Boat & Bait Shop (temporary structure).
- Fish cleaning station.
- Public Amenities (restrooms, benches, bike racks, educational displays, viewing stations, water fill stations, trash receptacles, and light posts)
- Memorial Plaques
- Donor Recognition Panels

In addition to the grand reopening of the Wharf in August 2024, the City plans to host two public concerts with food trucks; one in September and one in October.

Attachment 2 is the approved plan set for the Wharf Grand Re-Opening. *Please note, the temporary structures for the temporary fishing lease are not included in the plan set as the lease was not finalized at the time of publication of this RFP. Once a lease is approved for the site, additional information will be posted on the RFP webpage.*
